## PROFESSIONAL SUMMARY

Experienced React developer proficient in building interactive web applications using React.js and related technologies. Skilled in JavaScript, HTML, CSS, and modern web development principles. Committed to delivering high-quality code and optimizing user experiences, with excellent communication skills and a collaborative mindset.

## TECHNICAL SKILLS

React

Javascript

Redux

TypeScript

Git

HTML / CSS

Problem Solving

## EDUCATION

### Full-Stack Web Development, NeoG Camp Part Time Course

February 2023 – present | Bangalore, India

### Bachelor of Engineering, Pune Institute of Computer Technology

June 2016 – July 2021 | Pune, India

### Higher Secondary Certificate, KSK college

July 2014 – July 2016 | Beed, India

## PROFESSIONAL EXPERIENCE

### Egain, Software Engineer I

February 2022 – January 2023 | Pune, India

- Developed and maintained web applications using **React.js** and TypeScript, contributing to a responsive and user-friendly UI.
- Collaborated with cross-functional teams, including designers and backend developers, to deliver integrated solutions.
- Implemented state management with **Redux**, ensuring efficient data flow and predictable application behavior.
- Improved performance by **optimizing code**, reducing page load times, and implementing caching techniques.
- Utilized **Git for version control**, collaborating with team members to manage codebase changes and ensure smooth integration of features.
- Worked closely with product owners and stakeholders to understand project requirements and deliver on-time solutions.
- Participated in Agile ceremonies, including daily stand-ups, sprint planning, and retrospectives, ensuring efficient project delivery.

### Cognizant, Programmer Analyst Trainee

November 2021 – February 2022 | Pune, India

- Staying updated with the latest frontend development trends and best practices.
- Seeking guidance and mentorship from senior developers to enhance skills.
- Participating in team meetings and contributing to project discussions.
- Troubleshooting and resolving frontend-related issues.

## PROJECTS

### GoResto 📄

Developed and designed a Food Delivery Website using React (client-side) and Node.js (server-side)

• **Tech Stack:** React | Node.js | CSS

• **Area of Responsibility:**

- Implemented a user-friendly homepage with a responsive design
- Created login, logout, and signup functionality with authentication measures
- Integrated **Razorpay** for seamless and secure payment processing
- Implemented search functionality to enable users to find specific food products
- Developed product listing pages with details, pagination, and sorting options
- Implemented wishlist and cart features for users to save and purchase items

## SOFT SKILLS

Team Work

Proactive

Adaptability

Problem Solving

Creativity

### Chalchitra

Developed a social media app for movie buffs.

• **Tech Stack:** React | Redux | CSS

• **Area of Responsibility:**

- Utilized React, use-reducer, use-context for seamless user experience and efficient functionality.
- Leveraged various libraries to enhance app features and improve user engagement.
- Integrated external APIs to fetch movie data, including details, ratings, and reviews.
